EDUCATIONAL AND CULTURAL CENTRES

CONSTRUCCIONES
Y PROYECTOS

MDE

MDE understands that the architectural aspect of educational spaces is an element that makes a huge contribution to the quality of education imparted in those places.

That is why we work with the Education Authority to find the way to innovate, adapt and uncover the solutions which allow the enrichment of educational projects with the available resources.

The result is a long history in the construction and equipping of educational centres, with an understanding that stretches from infant school to professional training and university.

Enriching educational spaces.
