# INDUSTRIAL CONSTRUCTION

## CONSTRUCCIONES Y PROYECTOS

MDE has specialised in the field of industrial construction for a long time. This is borne out by the work carried out over the years on factories, workshops, technical buildings for railways and farming facilities, a field in which the company has developed various centres for production, transformation and commercialisation.

Numerous industrial institutions in all sectors, as well as public bodies, trust in our technical capacity to complete the construction, refurbishment and adaptation of their manufacturing buildings, an integrated service of construction and equipping, which incorporates the latest systems and resources, along with strict fulfilment of schedules and agreements with optimal quality conditions is what makes MDE a highly competitive company in this sector.
