MDE

Our experience in the execution of major public works projects allows us to bring the best technical designs and the highest quality standards with special attention to the safety conditions and respect for the environmental impact of the work activities.

We are specialists in the construction of public infrastructure, bridges, roads, railways, ports and airports as well as the urbanisation of plots for residential, industrial and tertiary use.

MDE has a broad technological capacity and a high technical profile, with professionals from diverse fields of engineering with long experience in civil works, making MDE a highly qualified company to carry out major projects and execute works which, due to their complexity and budget, can only be handled by the most able.

Experience, technological capacity and quality.
